PROFILE

As a recent graduate with a degree in Computer Science, I am excited to start my career in the field of IT. I have a strong foundation in HTML, CSS, JavaScript, and Bootstrap, and I am eager to continue learning and grow in the field. I am a quick learner with strong communication skills and have completed several projects based on my skills.

PROJECTS

1. Portfolio Website

https://mahendishaikh.github.io/Portfolio.github.io/

This is my portfolio website that showcases my education, skills, certificates, and projects. I designed and developed the website using HTML, CSS, and Bootstrap, and it includes examples of my work in creating responsive web design, interactive mini projects using JavaScript.

2. Static Responsive Website

https://mahendishaikh.github.io/my-channel-website.github.io

I developed a three-page static responsive website using HTML and CSS, featuring a clean and minimalist design. The website includes a 'Homepage', an 'About Us' page, and a 'Contact Us' page.I implemented responsive design principles, which allow the website to adapt seamlessly to different screen sizes and resolutions.

3. Message Display

https://mahendishaikh.github.io/messageDisplay.github.io

This project, developed using JavaScript, showcases an interactive message display button that allows users to enter their own messages into an input field and submit them to be displayed below. Overall, this project demonstrates a strong understanding of JavaScript Event Handling and provides a user-friendly interface for message display.

4. Color Click

https://mahendishaikh.github.io/colorClick.github.io/

I have developed a simple JavaScript project that demonstrates the ability to change the background color of a webpage using a click button. When the user clicks on the button, the background color of the page changes. This project showcases my understanding of JavaScript Event Handling
